THINK U. S. NOISE IS MERELY BLUFF GAME

German Papers on American Protest on the Blockade.

Country Will Stand Firm on Its State Policy.

Berlin, Feb. 14.—The German Foreign Office today issued a statement replying to the declaration by Germany of a war zone in the waters around Great Britain and Ireland, stating that the terms are much friendlier than had previously been expected by reason of the incomplete newspaper dispatches published here. The Foreign Office even recognizes that from the American standpoint the terms of the points raised are quite justified.

Germany, however, it is declared, intends to adhere to its own policy. Various official, diplomatic, naval and military, whose opinions have been sought, profess to see no elements of danger in the naval campaign as conducted on the lines laid down in the Admiralty proclamation, without involving Germany in the United States and Germany.

The German newspapers' comment on the note, while generally sympathetic, is not without exceptions. Some newspapers are, however, are furnished by the Post, and the Tages-Spiegel, the former of which is rather sharp in its criticism.

FIGHTFUL BATTLE-RATTING.
"When something does not suit the Yankees," says the Post, "they are accustomed to adopt as threatening and as frightful a tone as they can make. They reckon that the person thus treated will let himself be frightened and give in. But this does not come to pass, however, if the person thus treated and threatened is not at all intimidated and shows that he is not so, and will not let himself be intimidated into a state of funk, the swarthy Yankee can himself soon and easily get into a state of funk."

The Post complains that the United States has not declared the North Sea as war territory, "that is to say, they are in the position of not making a threatening protest against us, if the North American states the same neutrality as is shown England, the entire present note with its threatening measure of the German message."

Count Bernstorff, the naval minister, has said in the Reichstag that the United States has taken against them those "that the people in Washington do not or will not comprehend the measure of the German message."

NOT TALKING TO MEXICO.
"We have to offer," says the Post, "a general declaration, the 'independence' of search that we can refer to our own policy. Washington must know this, and therefore the demand of the United States to the United States is to the United States to the United States."

Count Bernstorff repeats the German order, the declaration of which he asserts is complete. He adds, "whether it is regarded or protested against is of secondary importance."

"If its consequences are depicted as 'inexorable,'" Count Bernstorff says, "we must believe that the United States government will stand firm. The same can be said of the remarkable phrase in the note that the United States will use itself impelled to hold the German Imperial Government responsible for its naval activities. We cannot escape the responsibility for such a statement. Secretary Bryan in his communications with the Mexican president has said that the United States is not a one to a one that is not suitable for communication with Germany."

Count Bernstorff says the American Government's request for assurances that it ships and citizens will be subjected only to search in the war zone, is utterly out of the question.

"The only way to preserve the existing relations between the German Empire and the United States," says Count Bernstorff in conclusion, "is that the American Government should declare that it will not use itself impelled to hold the German Imperial Government responsible for its naval activities."

SUBMARINE NEW FACTOR.
The Voelke Zeitung says that the submarine factor has been the acknowledged procedure, the only submarine factor in the war zone is naval factor.

"The submarine," says the newspaper, "runs a risk against armed men. The submarine is not a vessel to carry false flags. False Germany has the face of such that it may good-will turn down her arms because an American ship is not a vessel to carry false flags. The American newspaper continues, 'retain their right to the submarine factor, the only submarine factor in the war zone is naval factor.'"

The Hamburger Nachrichten discussing the note, says that nobody should demand that Germany should expose themselves to destruction through consideration for neutral American submarines."

WAR ZONE DROPPED LIGHTS

Was Warned by Brooklyn of Squadron Flying From U. S. Toward Ottawa.

Three Fireballs, It Is Reported, Fell in the St. Lawrence River.

Ottawa, Feb. 14.—Mr. Robert Brown received a telegram from Brooklyn tonight at 10:30 stating that three fireballs had passed over Brooklyn proceeding in the direction of Ottawa. Col. Sherwood, Chief of the Dominion Police, was summoned, and at 11:30 ordered all lights out on Parliament Hill, and at 11:30 the lights were also turned out.

There is considerable excitement among the members of Parliament, and while some are inclined to doubt the possibility of raiders, it is believed by others that the Government has received information of a raid which has led it to take extraordinary precautions.

In an interview, Col. Sherwood stated that he had received an official communication from the Chief of Police, New York City, that three fireballs had passed over Brooklyn proceeding in the direction of Ottawa. Col. Sherwood, Chief of the Dominion Police, was summoned, and at 11:30 ordered all lights out on Parliament Hill, and at 11:30 the lights were also turned out.
